Test 9

Read the paragraph and answer the questions given below. (10marks)

There was a fisherman who always wanted more than what he already had. "If only I were rich!" was the only thought he always had on his mind. He would never have to fish again. He would build a large house for himself and have lots of servants to wait on him. One day, when the fisherman was at sea, something heavy got entangled in his fishing net. It was a gold chain in the net.

"Gold! I'll be rich! "Visions of his day dreams coming true raised through his mind as he began to pull in the gold chain. His small boat began to sink due to the weight of the gold, but the man was too greedy to stop. Soon, water was rushing into the boat. Still, the man continued pulling in the never ending gold chain. The boat eventually capsized and the gold chain sank to the bottom of the sea, taking the greedy fisherman with it.
